

KONGSBERG

# K-FLEET EXPERIENCE

## KONGSBERG DIGITAL K-FLEET MANAGEMENT APPLICATIONS

K-Fleet is a comprehensive suite of applications designed to help shipping companies optimize their operations, reduce costs and ensure compliance with industry regulations.

With more than 40 years of experience, the K-Fleet software offers a wide variety of solutions to assist users in planned maintenance, inventory management, procurement, QSE, documentation, forms, certificates, voyage reporting, and fleet operations.

## K-Fleet Experience

### ENSURE SAFETY AND QUALITY IN OPERATIONS

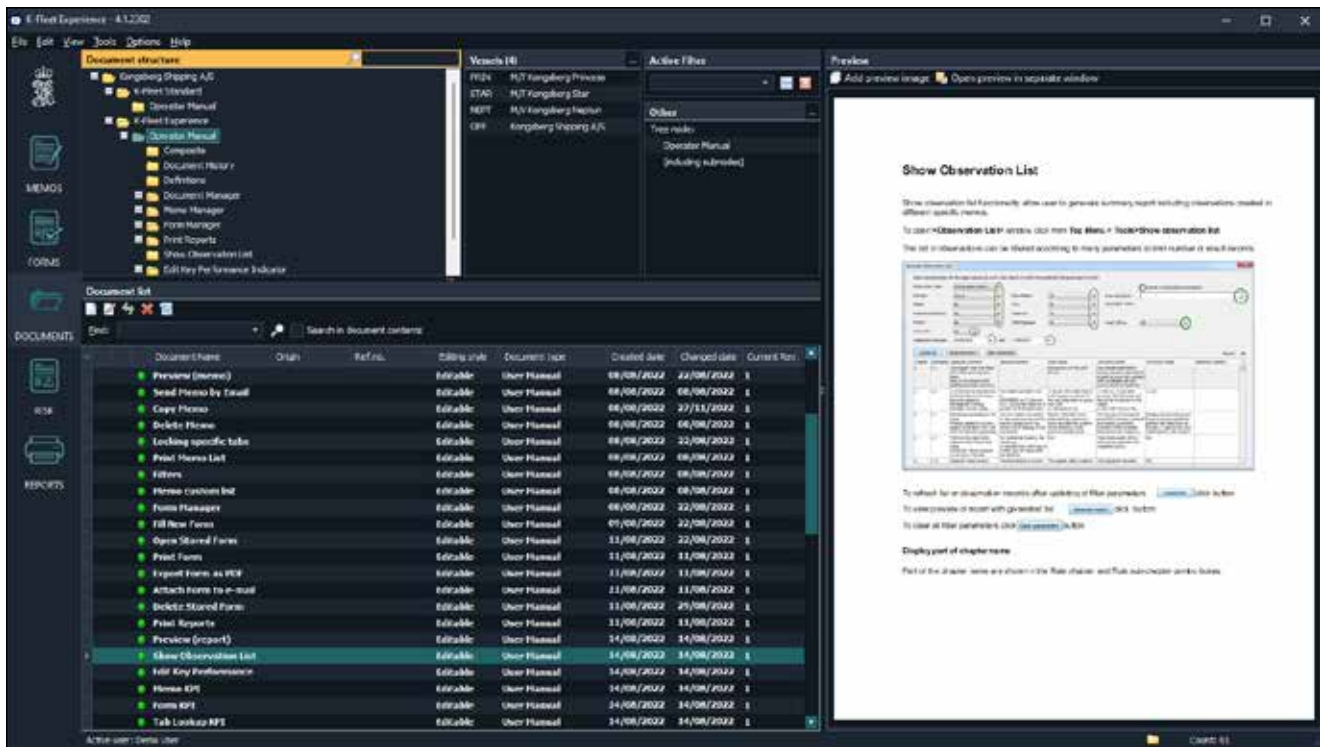

K-Fleet Experience is a comprehensive software solution that helps shipping companies optimize their operations, reduce costs, and ensure compliance with the latest industry regulations.

K-Fleet Experience provides a range of tools to manage and track tasks, monitor incidents, and generate reports, all in real time. This allows shipping companies to quickly identify and address any issues and take actions to improve the safety and well-being of their crew, prevent environmental damage, and reduce costs.

The solution is part of the K-Fleet Management application suite and includes document management and certificate handling features, making it easy to store and share important information such as safety plans, procedures, regulations, incident reports, and safety certificates. This ensures that shipping companies have the necessary documentation for audits and can comply with industry regulations and standards.

Some key features of K-Fleet Experience include:

- Information storage and sharing
- Document and certificate handling
- Create and assign tasks and track their progress
- Electronic forms
- Inspection follow-up
- Risk management
- Incident reporting
- Sharing of lessons learned

### BENEFITS

- Improved management: K-Fleet Experience provides tools to manage and track the operations of a shipping company, including creating and tracking tasks, monitoring incidents, and generating reports. This can help shipping companies to improve their management and compliance.
- Increased safety: With better control over operations, shipping companies can ensure the safety and well-being of their crew and the environment.
- Real-time monitoring: The system allows for real-time monitoring of incidents and tasks, allowing shipping companies to quickly identify any issues or deviations from the plans.
- Cost savings: By having better control over operations, shipping companies can lower costs, reduce the risk of incidents, and avoid penalties and legal actions.
- Improved compliance: By having accurate records of compliance-related information, shipping companies can comply with industry regulations and standards and have the necessary documentation for audits.
